Mauricio Ruiz

Data analytics | Business analysis | Project delivery

Dublin, Ireland | LinkedIn | Portfolio | GitHub

PROFESSIONAL PROFILE

Analyst with experience in global technology operations, stakeholder requirements, KPI reporting, workflow automation and machine learning. Combines a background in social communication with a First Class Honours Higher Diploma in Data Analytics to communicate findings and support practical business decisions.

CORE SKILLS

SQL, Python, Power BI, statistics, machine learning, XGBoost, Pandas, scikit-learn, Streamlit, Plotly, Power Apps, Dataverse, requirements gathering, root cause analysis, stakeholder collaboration and process improvement.

EXPERIENCE

TikTok | Business analysis and project management

Dublin | March 2024 - Present

Gather stakeholder requirements and translate them into reporting and automation solutions. Build operational KPI dashboards, investigate emerging risks and coordinate improvements across EMEA teams. Developed Python reporting workflows saving approximately eight hours of manual work each week and machine learning workflows to anticipate moderation risks.

Accenture | Quality Analyst

Dublin | September 2021 - March 2024

Conducted quality audits and root cause analysis, gathered stakeholder feedback, and built Power BI dashboards integrating Dataverse data. Designed and deployed a Power Apps workflow that reduced appeals processing time by 50% and improved reporting consistency.

SELECTED PROJECTS

NASDAQ-100 forecasting: Combined market and macroeconomic data, engineered time-series features and evaluated XGBoost models using chronological splits. Published direction-classification experiment reported 74% accuracy.

Music analytics dashboards: Integrated multiple APIs, resolved metadata inconsistencies and built interactive Streamlit and Plotly dashboards for the Big Four of thrash metal and Death's studio discography.

AI portfolio assistant: Built a deployed conversational interface using structured Markdown knowledge, embeddings, vector retrieval and Gemini to answer questions about professional experience and projects.

EDUCATION

Higher Diploma in Data Analytics - First Class Honours
National College of Ireland

Bachelor's degree in Social Communication

Concise professional profile | November 2026 | Project reports and demonstrations are available through the portfolio.
